- ✓ Real-time monitoring of transaction volumes
- ✓ Security access to Merchant Payment account & Reserve account
- ✓ Receiving alerts for non-captured transactions & new chargebacks
- ✓ Generating various automated reports and statements on a daily & weekly basis
- ✓ Analyzing risk transactions and uploading chargeback documents

iCard POS Pro

With iCard POS Pro, you get everything in the iCard POS Standard + an account in iCard for Business with a wide range of features, to help you take your business to the next level.

Why iCard for Business?

- ✓ Seamless settlement of accepted payments
- ✓ 24/7 access to your funds
- ✓ Full control via a web platform and mobile app
- ✓ Flexibility - choose from a wide range of available features and services as your business grows
- ✓ Instant and free transfers within the iCard system – to other iCard for Business or iCard Digital Wallet users

iCard for Business account

iCard for Business provides a more convenient alternative to conventional banking with an online e-money business account with European IBANs, debit cards, expense cards for employees, instant transfers, and many more features that will help you take your business to the next level.

Opening an account is free and allows you to seamlessly receive money from your sales.

Features of the iCard for Business account

E-money business accounts

with European IBANs in multiple currencies

Payment requests via links

Accept instant card payments for any products and services

Quick and convenient settlement

Receive payouts of accepted card payments directly in your business account

Expense cards for employees

Prepaid debit cards with separate budgets for your employees as your business grows

SEPA & SEPA Instant transfers

Send and receive money in EUR under 10 seconds with SEPA Instant*

24/7 online access

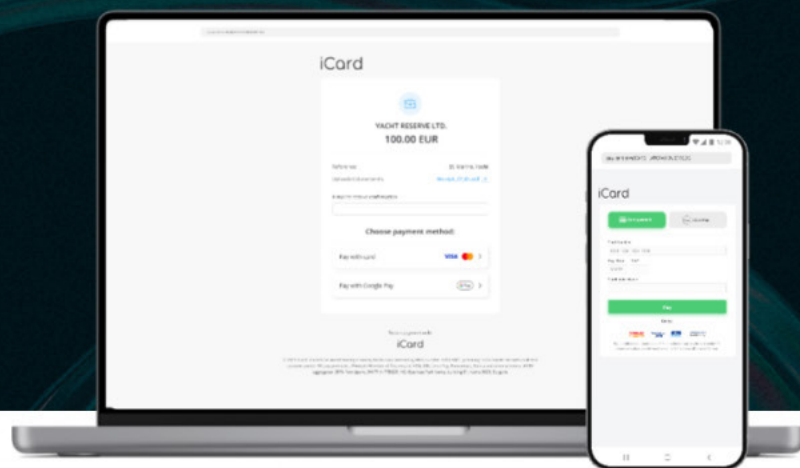

Manage your funds from any device – laptop, smartphone, or tablet

* The receiver's bank also has to support SEPA Instant transfers

Take advantage of payment links

A payment link is an easy way to accept card payments, even without a POS terminal or an online store.

Simply generate a payment link via the iCard for Business online platform and send it to a client via SMS, e-mail or chat. The link will redirect them to a secure page where they can complete the card payment. The money will be credited to your account immediately.

More great features to help you take control of your finances

Enjoy custom limits on your accounts

Take advantage of preferential prices with the POS bundle

Set up recurring & mass transfers, direct debits & more

Get free detailed reports & statements with just a few clicks

The background of the slide features a dark teal and blue color palette with fluid, wavy, liquid-like patterns that create a sense of motion and depth. The text is centered and rendered in a clean, white, sans-serif font.
